

Faculty Welfare and Development Committee

Annual Report, 2020-2021

The Faculty Welfare and Development Committee (FWDC) pursued several initiatives during the 2020-2021 academic year. Specifically, the following activities were completed/or remain in progress: (1) development of a college-wide mentoring plan for faculty; (2) health and wellness initiatives for the CJC, including several workshops; and (3) tenure and promotion workshops. Looking ahead, the FWDC is planning ways to continue supporting mentoring. The FWDC is also collaborating with the IDE committee as well, which is expected to continue into the 2021-2022 academic year.
