

Faculty Welfare and Development Committee

Annual Report, 2021-2022

The Faculty Welfare and Development Committee (FWDC) pursued several initiatives during the 2021-2022 academic year. Specifically, the following activities were completed/or remain in progress: (1) development of a college-wide mentoring plan for faculty; (2) allyship initiatives; and (3) tenure and promotion workshops. Looking ahead, the FWDC is planning ways to continue supporting mentoring and allyship. The FWDC is also collaborating with the IDE committee as well, which is expected to continue into the 2022-2023 academic year.
